

In the Abstract

Please substitute the following amended Abstract for the Abstract as currently pending (deleted matter is shown by strikethrough and added matter is shown by underlining):

ABSTRACT

The invention relates to an assembly comprising a biomedical electrode-(1), a cable-(2) and elastic snap-in fixing means-(3,4) which are intended to fix the electrode-(1) to the cable-(2). The aforementioned fixing means-(3,4) comprise a male element-(3) and a female element-(4). The invention is characterized in that the male element-(3) comprises a hole-(5) and in that the female element-(4) comprises a projection-(9) which is shaped such that it can be housed in said hole-(5).
